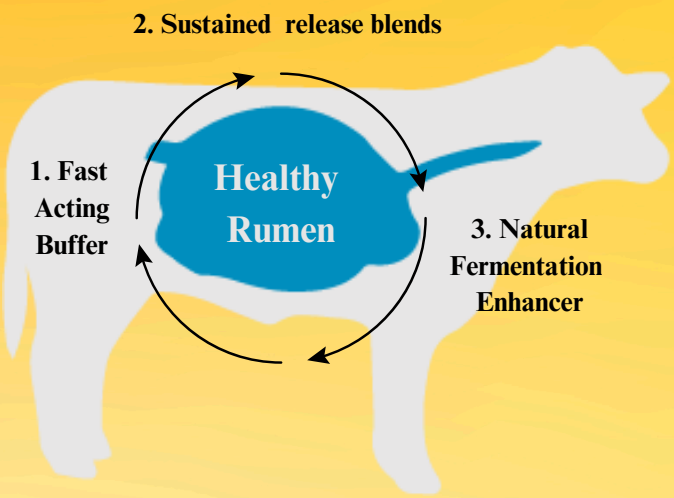
GROWSCIENCE™
Innovation Grows Here

A rumen out of balance is a cow out of sync, what if you could fix it from inside out ?

Balancing rumen pH isnt just science - its smart science

RECHARGE
Smarter Rumen Buffering

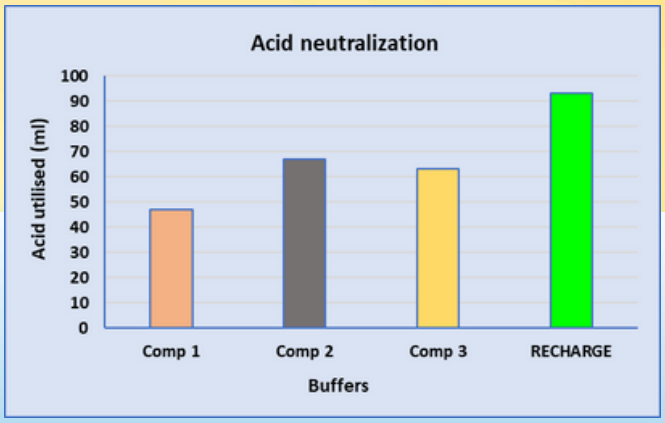
RECHARGE is high performance rumen buffer formulated to stabilize rumen pH, enhance digestion and improve feed efficiency with balanced blend of buffering agents and alkalizing salts with red algae extract.

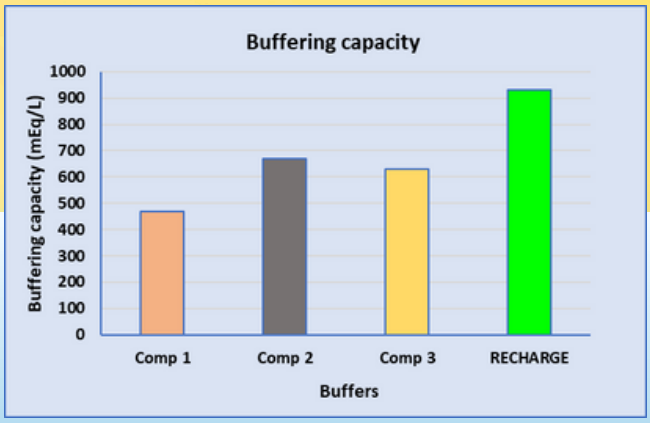


1. Instantly neutralizes excess acidity in the rumen
2. Ensures extended buffering action
3. Promotes better rumen health

Lab tests confirm that RECHARGE outperforms top competitors.

RECHARGE have highest acid neutralization and buffering capacity.





BENEFITS

- Stable rumen pH
- Enhanced fiber digestion
- Improved feed efficiency
- Reduces risk of acidosis

RECOMMENDED USE

- Dairy cattle & Buffaloes - 50-75 g/animal/day
- Heifer - 15-25 g/animal/day
- Summer stress - Increase feeding rate by 25 %
- Cattle Feed - 0.5-1 %

or as recommended by Animal Nutritioninst.
